SPECIAL NOTES

1. The names and numbers of the 8 mile to 1 inch Aeronautical Charts covering Alberta are outlined in red on this Map. These National Topographic Series — as they are known — are available by mail from the Map Distribution Office, Department of Mines and Technical Surveys, 615 Booth Street, Ottawa, Ontario, Canada, and locally at some of the Major Airports at 50 cents per copy.
2. It is mandatory for all aircraft flying into sparsely settled areas (in Alberta that area north and west of the line so indicated) to carry suitable 2-way radio equipment, 5 lbs. of concentrated food per person, cooking utensils, and other emergency camping equipment as listed in Canadian Department of Transport Air Navigation Orders Series V, No. 12.
3. Permission to fly over or land in the 4 Restricted Military Areas must be sought from the local Commanding Officers.
4. Permission to fly over or land in the 3 Restricted Provincial Park Areas must be sought from the Government of Alberta, Department of Lands and Forests, Edmonton, Alberta. It is pointed out that restrictions on these 3 areas only applies between 31 August and 14 December each year.
5. The Department of Lands and Forests would appreciate sighting information on forest fires. However, if a forest fire is seen, approach with caution as it may already be under suppressive action — in which case there would be considerable air activity in the area. If such is seen to be the situation, all aircraft not involved in fighting the fire are to vacate the area immediately.
6. For a road map and general travel and tourist information on Alberta, write to the Alberta Government Travel Bureau, 331 Highways Building, Edmonton, Alberta.
7. For aviation facilities information further to that provided on this Map, write to the Alberta Aviation Council, 201 Terminal Building, Industrial Airport, Edmonton, Alberta.
8. On this Map, please report any errors, omissions, changes, to the Alberta Aviation Council, 201 Terminal Building, Industrial Airport, Edmonton, Alberta.
